Project Design Phase-II
Technical Architecture

Date	20 October 2022
Team ID	PNT2022TMID53331
Project Name	Estimate the Crop Yield using Data Analysis

Technical Architecture:

- **Data is acquired from the user for analysis. It is then cleaned and prepared and a data report is formed.**
- **The collected data is then visualized using various plots on the IBM Cognos dashboard**
- **This is a very effective way in helping farmers to evaluate the crop yields and to make improvements**
